   i Afraid of Waking
4. ii Daylight Rush
5. iii Evening Respite

7. Garage Trash — Early 60's garage bands (The Kingsmen, The Trashmen, MC5)
8. A Love Now Lost — John Barry meets Santo and Johnny
9. Bedrock — Dick Godfrey's BBC Radio Newcastle Show from the 1970's was a beacon for N.E. Music. Spot the Steve Brown Band sample.
10. Your Reflection — The late great John Martyn's orchestral echo style creates the backing on this composition.

All of these instrumental compositions were inspired by the life-long love my brother Chris and I shared for the early electric guitar music of the 50's and early 60's.
Walk Don't Run was often performed on cardboard cut-out Fenders.
Chris on the Strat and me on the Precision.
